BELLA TERRA PARTNERS ACHIEVES WBE CERTIFICATION

Chicago, IL – April 2013 - [Bella Terra Partners](#), a tenant representation commercial real estate firm recently received national certification as a Women's Business Enterprise (WBE) by the Women's Business Development Center of Chicago, a regional certifying partner of the Women's Business Enterprise National Council (WBENC).

WBENC's national standard of certification requires a meticulous process, including an in-depth review of the business and a site inspection. The goal of the process is to confirm the business is at least 51% owned, operated, controlled, and managed by a woman or women. With this certification Bella Terra Partners is recognized as a successful woman-owned commercial real estate firm.

"This recognition is a great honor, not only for me, but also for my team, who share in this success," said Rhea Campbell, the Founding Partner and sole owner of the firm. "Having this certification reinforces my commitment to provide outstanding results and unmatched customer service for our clients. We feel a great responsibility to set an example of leadership for other female entrepreneurs entering any typically male-dominated industry."

In an effort to provide a more customized business solution to office users around the globe, Rhea Campbell opened the boutique real estate firm in 2008. Since then, the firm has experienced consistent growth and has worked with a diverse group of clients in Chicago, New York, San Francisco, Atlanta, London, Hong Kong and Zurich. Ms. Campbell anticipates this certification will further the company's visibility among decision makers who have corporate initiatives to partner with successful women-owned commercial real estate firms.

The Women's Business Enterprise National Council (WBENC) is the nation's largest third-party certifier of businesses owned and operated by women. The WBENC database is a resource for the more than 300 US companies and government agencies that rely on WBENC's certification as an integral part of their supplier diversity programs. It is recognized and accepted by more than 1,000 corporations across the US and many federal and government agencies.
